

Volumes 11-20

The Porphyrin Handbook

Volumes in this set

Volume 11 – Bioinorganic and Bioorganic Chemistry

(Chapters 62-68)

Volume 12 – The Iron and Cobalt Pigments: Biosynthesis, Structure and Degradation

(Chapters 69-76)

Volume 13 – Chlorophylls and Bilins: Biosynthesis, Synthesis and Degradation

(Chapters 77-84)

Volume 14 – Medical Aspects of Porphyrins

(Chapters 85-96)

Volume 15 – Phthalocyanines: Synthesis

(Chapters 97-101)

Volume 16 – Phthalocyanines: Spectroscopic and Electrochemical Characterization

(Chapters 102-106)

Volume 17 – Phthalocyanines: Properties and Materials

(Chapters 107-111)

Volume 18 – Multiporphyrins, Multiphthalocyanines and Arrays

(Chapters 112-116)

Volume 19 – Applications of Phthalocyanines

(Chapters 117-121)

Volume 20 – Phthalocyanines: Structural Characterization

(Chapter 122)

(Cumulative Index)

Volume 11 (Chapters 62-68)

Bioinorganic and Bioorganic Chemistry

62 Functional and Structural Analogs of the Dioxygen Reduction Site in Terminal Oxidases

James P. Collman, Roman Boulatov, and Christopher J. Sunderland

63 Heme Protein Dynamics: Electron Tunneling and Redox Triggered Folding

Harry B. Gray and Jay R. Winkler

64 Chiral Metalloporphyrins and their use in Enantiocontrol

Jean-Claude Marchon and Rene Ramasseul

65 Carbene Complexes of Metalloporphyrins and Heme Proteins

G rard Simonneaux and Paul Le Maux

66 Metalloporphyrins in the Biomimetic Oxidation of Lignin and Lignin Model Compounds: Development of Alternative Delignification Strategies

Claudia Crestini and Pietra Tagliatesta

67 Biochemistry of Methyl-CoM Reductase and Coenzyme F₄₃₀

Stephen W. Ragsdale

68 Structure, Reactions and Functions of B₁₂ and B₁₂-proteins

Bernhard Kr utler and Sigr d Ostermann

Volume 12 (Chapters 69-76)

The Iron and Cobalt Pigments: Biosynthesis, Structure and Degradation

69 Regulatory Mechanisms for Eukaryotic Tetrapyrrole Biosynthesis

Bernhard Grimm

70 The Biosynthesis of Coproporphyrinogen III

Peter M Shoolingin-Jordan

71 Coproporphyrinogen III and Protoporphyrinogen IX Oxidases

Muhammad Akhtar

72 Ferrochelatase

Harry A. Dailey and Tamara A. Dailey

73 The Family of d-Type Hemes: Tetrapyrroles with Unusual Substituents

Russell Timkovich

74 Biosynthesis and Role of Heme O and Heme A

Tatsushi Mogi

75 Heme Oxygenase Structure and Mechanism

Paul R. Ortiz de Montellano and Karine Auclair

76 Genetic and Mechanistic Exploration of the Two Pathways of Vitamin B₁₂ Biosynthesis

A. Ian Scott, Charles A. Roessner, and Patricio J. Santander

Volume 13 (Chapters 77-84)

Chlorophylls and Bilins: Biosynthesis, Synthesis and Degradation

77 Mechanism, Structure and Regulation of Magnesium Chelatase

Robert D. Willows and Mats Hansson

**78 Intermediate Steps in Chlorophyll Biosynthesis:
Methylation and Cyclization**

Dave W. Bollivar

79 The Last Steps of Chlorophyll Synthesis

Wolfhart Rüdiger

**80 The Light-Independent Protochlorophyllide Reductase:
A Nitrogenase-Like Enzyme Catalyzing a Key Reaction
for Greening in the Dark**

Yuichi Fujita and Carl E. Bauer

**81 Chlorosome Chlorophylls (Bacteriochlorophylls c, d and e):
Structures, Partial Syntheses and Biosynthetic Proposals**

Kevin M. Smith

82 Chlorophyll Breakdown and Chlorophyll Catabolites

Bernhard Kräutler

83 Biosynthesis and Biological Functions of Bilins

Nicole Frankenberg and J. Clark Lagarias

84 Synthesis of Bilins

Albert Gossauer

Volume 14 (Chapters 85-96)

Medical Aspects of Porphyrins

85 Erythropoietic Disorders Involving Heme Biosynthesis

Sylvia S. Bottomley

86 Acute Intermittent Porphyria: From Clinical to Molecular Aspects

Jean-Charles Deybach and Hervé Puy

87 Congenital Erythropoietic Porphyria

Hubert de Verneuil, Cécile Ged, and François Moreau-Gaudry

88 Porphyria Cutanea Tarda and Related Disorders

George H. Elder

89 Variegate Porphyria

Peter Meissner, Richard Hift, and Anne Corrigall

90 Protoporphyrin

Timothy M. Cox

91 Miscellaneous Abnormalities in Porphyrin Production and Disposal

Richard J. Hift and Peter R. Meissner

**92 Porphyria caused by chlorinated AH Receptor Ligands
and Associated Mechanisms of Liver Injury and Cancer**

Andrew G. Smith

93 Porphyria: A Diagnostic Approach

Felix W. M. de Rooij, Annie Edixhoven, and J. H. Paul Wilson

94 Approaches to Treatment and Prevention of Human Porphyrias

Karl E. Anderson

95 Management and Treatment of the Porphyrias

J. H. Paul Wilson and Felix W. M. de Rooij

96 Porphyria: A Toxicogenetic Disease

Richard J. Hift, Peter N. Meissner, and Michael R. Moore

Volume 15 (Chapters 97-101)

Phthalocyanines: Synthesis

97 Synthesis of Phthalocyanine Precursors

Wesley M. Sharman and Johan E. Van Lier

98 The Synthesis of Symmetrical Phthalocyanines

Neil B. McKeown

99 Design and Synthesis of Low-Symmetry Phthalocyanines and Related Systems

M. Salomé Rodríguez-Morgade, Gema de La Torre, and Tomás Torres

100 Synthesis and Spectroscopic Properties of Phthalocyanine Analogues

Nagao Kobayashi

101 Porphyrazines with Annulated Heterocycles

Pavel A. Stuzhin and Claudio Ercolani

Volume 16 (Chapters 102-106)

Phthalocyanines: Spectroscopic and Electrochemical Characterization

- 102 **The Photophysical Properties of Phthalocyanines and Related Compounds**
Kazuyuki Ishii and Nagao Kobayashi
- 103 **Electronic Structures of Metal Phthalocyanine and Porphyrin Complexes from Analysis of the UV-Visible Absorption and Magnetic Circular Dichroism Spectra and Molecular Orbital Calculations**
John Mack and Martin J. Stillman
- 104 **Electrochemistry of Phthalocyanines**
Maurice L'Her and Annig Pondaven
- 105 **Lanthanide Phthalocyanine Complexes**
Raymond Weiss and Jean Fischer
- 106 **Photoelectrochemical Reactions at Phthalocyanine Electrodes**
Derck Schlettwein, Nils I. Jaeger, and Torsten Oekermann

Volume 17 (Chapters 107-111)

Phthalocyanines: Properties and Materials

107 Physical Properties of Phthalocyanine-based Materials

Danilo Dini and Michael Hanack

108 Phthalocyanine Thin Films: Deposition and Structural Studies

Michael J. Cook and Isabelle Chambrier

109 Phthalocyanine Aggregation

Arthur W. Snow

110 Porphyrins and Phthalocyanines in Macromolecules

Dieter Wöhrle and Günter Schnurpfeil

111 Porphyrins and Phthalocyanines Encapsulated in Inorganic Host Materials

Michael Wark

Volume 18 (Chapters 112-116)

Multiporphyrins, Multiphthalocyanines and Arrays

- 112 **Single-Atom Bridged Dinuclear Metal Complexes with Emphasis on Phthalocyanine Systems**
Barbara Floris, Maria Pia Donzello, and Claudio Ercolani,
- 113 **Recent Advances in Free and Metalated Multi-Porphyrin Assemblies and Arrays: A Photophysical Behavior and Energy Transfer Perspective**
Pierre D. Harvey
- 114 **Stacked Polymeric Phthalocyanines: Synthesis and Structure-Related Properties**
Michael Hanack and Danilo Dini
- 115 **Self-Assembly of Chiral Phthalocyanines and Chiral Crown Ether Phthalocyanines**
Pall Thordarson, Roeland J.M. Nolte, and Alan E. Rowan
- 116 **New Developments in Corrole Chemistry: Special Emphasis on Face-to-face Bismacrocycles**
Roger Guilard, Jean-Michel Barbe, Christine Stern, and Karl M. Kadish

Volume 19 (Chapters 117-121)

Applications of Phthalocyanines

117 Phthalocyanines in Photobiology and their Medical Applications

Ehud Ben-Hur and Wai Shun Chan

118 Radical Phthalocyanines and Intrinsic Semiconduction

Marcel Bouvet

119 Phthalocyanine Dyes and Pigments

Peter Erk and Heidi Hengelsberg

**120 Enzyme-like Catalytic Reactions of Metallophthalocyanines
and Polymeric Metallophthalocyanines**

Mutsumi Kimura and Hirofusa Shirai

121 Nonlinear Optical Properties of Phthalocyanines

Steven R. Flom

Volume 20 (Chapter 122)

Phthalocyanines: Structural Characterization

122 Single-Crystal Structures of Phthalocyanine Complexes and Related Macrocycles

Michael Klaus Engel

--- Cumulative Index
